YOUR PARTNER IN VEAL

Vitelco is one of the largest veal slaughterhouses and deboning halls in Europe. We produce and supply white and rosé veal, and young beef in all possible cuts, portions and numbers. In order to guarantee the high quality of our veal products and to ensure continuity of supply, Vitelco plays an active part as chain director. We agree clear rules with every link in the chain and constantly check quality and the various processes. Thanks to the strength of our international network, we are able to offer customer specific cuts of meat. These are prepared daily in our deboning hall to ensure the freshest product possible.
